Plots where the magnitudes are the direct output of the FFT

Spectrogram for Channel 1

Force Sensor Input subsampled to 256 Hz

Raw Data

Beta band (average power at 12-30 Hz) for all channels, aligned to falling edge

Beta band (average power at 12-30 Hz) for all channels, aligned to rising edge

Gamma band (average power at 65-115 Hz) for all channels, aligned to falling edge

Gamma band (average power at 65-115 Hz) for all channels, aligned to rising edge
